CHITTORTECH™

Intelligent AI & Knowledge Systems For Your Business.

AI SOLUTIONS & CHATBOTS GUIDE

www.chittortech.online

RAG Knowledge Base & Enterprise AI

Transform thousands of internal documents, PDFs, manuals, and databases into an intelligent, instantly searchable AI knowledge system. Eliminate information silos and empower your teams to find answers in seconds.

10x	95%	∞	24/7
FASTER RETRIEVAL	ACCURACY RATE	DOCS SUPPORTED	AI SEARCH

Retrieval-Augmented Generation (RAG)

RAG is the gold standard for enterprise AI. Instead of relying on a generic LLM's outdated training data, RAG connects AI to your specific documents, policies, and databases — so answers are always accurate, current, and traceable to real sources.

Zero Data Leakage. 100% Secure.

How RAG Works

01	02	03	04
Ingest	**Embed**	**Retrieve**	**Generate**
Upload documents & DBs	Convert to vectors	Find relevant chunks	Precise cited answer

Intelligent AI Chatbot Development

Automate your customer service, generate leads, and engage users 24/7 with custom-trained AI chatbots. We build intelligent conversational agents across all your digital touchpoints.

Website AI Chatbots

Embed a custom-trained AI directly into your website. It can answer customer FAQs, guide users through your services, collect lead information, and schedule appointments—all in real-time, reducing bounce rates and boosting conversions.

Lead Gen | 24/7 Support | Custom Widget

WhatsApp Business AI

Turn your WhatsApp Business number into an automated sales and support engine. The AI handles customer inquiries, shares catalogs, answers product questions, and routes complex issues to human agents instantly.

Official API | Broadcasts | Automated Sales

Omnichannel General AI Chatbots

Need a bot for Facebook Messenger, Instagram, Slack, or an internal dashboard? We build unified conversational AI systems that integrate across multiple platforms and APIs to serve your specific workflow.

Social Media | Slack / Teams | Custom Logic

Enterprise Knowledge System Features

- **Instant Semantic Search**
  Find answers across thousands of docs in milliseconds using vector similarity search — no keyword matching needed.
- **Source Attribution**
  Every AI answer includes links to the exact source documents and page numbers, enabling instant verification.
- **Role-Based Access**
  Granular permissions ensure employees only access documents they're authorized for (e.g., HR policies for HR).
- **Real-Time Sync**
  Connect to Google Drive, SharePoint, or internal systems for automatic syncing — your AI always stays current.
- **Multi-Language Support**
  Query in English, Hindi, or regional languages. Our systems support cross-language semantic retrieval.
- **Private Deployment**
  Full on-premise or private VPC deployment. Your documents never touch external AI services without consent.

Supported Document Types

PDFs | Word / DOCX | Excel / CSV | PowerPoint | Web Pages | Confluence | Notion | SharePoint | SQL Databases | APIs

Who Uses RAG Knowledge AI?

- **Internal Employee Helpdesk**
  Let employees ask HR policies, IT procedures, and FAQs in natural language, reducing HR ticket volume by 60%+.
- **Customer Support Knowledge Base**
  Power your support agents or public-facing chatbot with your entire product documentation.
- **Legal & Compliance Search**
  Search contracts, regulations, and case law in seconds. Reduce legal research time from hours to minutes.
- **Sales Intelligence**
  Equip sales teams with AI access to case studies, competitor analysis, and pricing during live demos.

Deployment Process

01 **Audit & Ingestion**
Audit existing docs, define scope, build ingestion pipeline.

02 **Embedding & Indexing**
Semantic chunking, vector conversion, vector database setup.

03 **RAG & LLM Integration**
Build retrieval pipeline, connect LLM, prompt engineering.

04 **UI, Security & Deployment**
Chat interface, RBAC, deployment on cloud or on-premise.

AI Solutions Pricing

Scalable AI packages tailored to your business operations.

Website AI Chatbot

Customer support and lead generation widget trained on your site data.

STARTING FROM

₹14,999

WhatsApp AI Bot

Automate conversations and sales directly on WhatsApp Business.

STARTING FROM

₹19,999

MOST POPULAR

Internal RAG Knowledge Base

Train AI on your company documents (PDFs, Word) for internal employee search and instant answers.

STARTING FROM

₹39,999

- Cloud Vector Database Setup
- LLM Integration (OpenAI/Claude)
- Document Ingestion Pipeline
- Custom Web Chat Interface

Enterprise AI RAG System

Full-scale private deployment. Syncs with live databases, secure environments, and granular RBAC.

STARTING FROM

₹79,999+

- Local LLM & On-Premise Options
- SharePoint & SQL Database Sync
- Role-Based Access Control
- API Integration into ERP/CRM

Customizable Solutions

Every business is unique, and so are its digital requirements. We specialize in building fully customized AI solutions, RAG pipelines, and Chatbots tailored entirely to your specific operational needs and goals.

Pricing Disclaimer

- **Starting Prices:** All AI development prices mentioned in this brochure are minimum starting prices for standard implementations.
- **Custom Rates:** Pricing for custom AI systems will vary based on document volume, API integrations, security requirements, and local vs cloud models.
- **Final Quotation:** After a detailed audit of your data sources and goals, we will provide a comprehensive, finalized quotation specific to your project.

Reach out to us to discuss your customized AI requirements.
